PRINTED IN GREAT BRITAIN
AT THE UNIVERSITY PRESS, OXFORD
BY CHARLES BATEY, PRINTER TO THE UNIVERSITY

CONTENTS

Number 1

T. J. MARSHALL. A Relation between Permeability and Size Distribution of Pores 1

W. L. KUBIËNA. The Classification of Soils 9

P. H. T. BECKETT. The Soils of Kerman, South Persia 20

J. C. F. TEDROW, J. V. DREW, D. E. HILL, *and* L. A. DOUGLAS. Major Genetic Soils of the Arctic Slope of Alaska 33

J. D. COLWELL. Observations on the Pedology and Fertility of some Krasnozems in Northern New South Wales 46

J. B. D. ROBINSON. Some Chemical Characteristics of 'Termite Soils' in Kenya Coffee Fields 58

D. M. MCALEESE *and* S. MCCONAGHY. Studies on the Basaltic Soils of Northern Ireland. III. Exchangeable-cation Contents of Sand, Silt, and Clay Separates 66

D. M. MCALEESE *and* W. A. MITCHELL. Studies on the Basaltic Soils of Northern Ireland. IV. Mineralogical Study of the Clay Separates (<2μ). 76

D. M. MCALEESE *and* W. A. MITCHELL. Studies on the Basaltic Soils of Northern Ireland. V. Cation-exchange Capacities and Mineralogy of the Silt Separates (2–20μ) 81

A. E. MARTIN *and* R. REEVE. Chemical Studies of Podzolic Illuvial Horizons. III. Titration Curves of Organic-matter Suspensions 89

R. SCOTT RUSSELL, E. W. RUSSELL, *and* P. G. MARAIS. Factors Affecting the Ability of Plants to Absorb Phosphate from Soil. II. A Comparison of the Ability of Different Species to Absorb Labile Soil Phosphate . . . 101

S. C. CHANG *and* M. L. JACKSON. Soil Phosphorus Fractions in Some Representative Soils 109

O. TALIBUDEEN. Isotopically Exchangeable Phosphorus in Soils. III. The Fractionation of Soil Phosphorus 120

R. I. MORRISON. The Alkaline Nitrobenzene Oxidation of Soil Organic Matter 130

TSUNEO TAMURA. Identification of Clay Minerals from Acid Soils . . 141

F. SMITHSON. Grass Opal in British Soils 148

D. A. RENNIE *and* R. J. SOPER. The Effect of Nitrogen Additions on Fertilizer-phosphorus Availability. II. 155

Number 2

S. A. HARRIS. The Gilgaied and Bad-structured Soils of Central Iraq . 169

V. B. PROUDFOOT. Problems of Soil History. Podzol Development at Goodland and Torr Townlands, Co. Antrim, Northern Ireland 186

J. B. DALRYMPLE. The Application of Soil Micromorphology to Fossil Soils and Other Deposits from Archaeological Sites 199

B. W. AVERY. A Sequence of Beechwood Soils on the Chiltern Hills, England 210

K. G. TILLER. The Geochemistry of Basaltic Materials and Associated Soils of South-eastern South Australia 225

CONTENTS. *Number* 2 (*continued*)

E. W. RADOSLOVICH. Clay Mineralogy of Some Australian Red-brown Earths 242

C. R. CLEMENT *and* T. E. WILLIAMS. An Examination of the Method of Aggregate Analysis by Wet Sieving in Relation to the Influence of Diverse Leys on Arable Soils 252

T. A. JONES. Nitrogen Studies on the Irrigated Soils of the Sudan Gezira. II. Extended Fallowing in Cotton Rotations 267

T. A. JONES. Carbon Studies on the Irrigated Soils of the Sudan Gezira . 272

T. A. JONES. A Study of Carbon-Nitrogen Ratios on the Irrigated Soils of the Sudan Gezira 277

W. N. M. FOSTER *and* R. SCOTT RUSSELL. Factors Affecting the Ability of Plants to Absorb Phosphate from Soils. III. Plant-physiological Effects of Iron 280

D. M. MCALEESE. Studies on the Basaltic Soils of Northern Ireland. VI. Cation-exchange Capacities and Mineralogy of the Fine-sand Separates . 289

G. W. COOKE, G. E. G. MATTINGLY, *and* R. J. B. WILLIAMS. Changes in the Soil of a Long-continued Field Experiment at Saxmundham, Suffolk . 298

MARGARET G. DETTMANN. Water Uptake by Pure Clays and Soil Crumbs . 306

E. C. CHILDS *and* E. G. YOUNGS. The Nature of the Drain Channel as a Factor in the Design of a Land-Drainage System 316

N. COLLIS-GEORGE *and* E. G. YOUNGS. Some Factors Determining Water-table Heights in Drained Homogeneous Soils 332
